Flowering and Growth Stimulant. Naturally Digested. High Analysis. Ideal for Fruit and Vegetable Crops. Fruit Trees. Vines.

Australian Organic Registered Farm Input No. 442

Flower-Stim is a biologically sound high analysis kelp concentrate containing a powerful source of plant hormones, Vitamin B, Sea Minerals, and micro-organisms. An immediate supply of natural plant growth stimulants is made possible due to Flower Stim's extremely cold growing environment and the extended biological digestion process used to produce this unique formulation from premium quality Baltic Sea Kelp (*Ascophyllum nodosum*).
